

K-Love is a radio station I can listen to from coast to coast. I am in the military and with all the moving around I do, I am not always fortunate to live in town with a local Christian radio station. K-Love helps to bring Christian music to many towns that may not otherwise get Christian music. I believe enough in their programming that spend my own money to keep their radio station funded. Removing K-Love from the air would have a very negative effect on the city/cities impacted by the decision. Worst of all would be the spreading of God's word. Please keep K-Love on the air.
